This Month

The Governing Council has been playing "Shuffle the Calendar" again. In order to increase attendance at the focus play parties (Men's Party, Women's Party, Desert Dominion Next Generation (DDNG) Party), it was decided to move them from week nights to the first Saturday of each month. These will rotate starting with a Men's Party in

October, followed by a Women's Party in November, a DDNG Party in December, and so on. The time and length of the parties will be adjusted to be the same as our regular pansexual parties. The fee will therefore be the same as well; 8pm to 1am with a fee of \$10.

The Governing Council also decided that Harry is SIC; Space Improvement Coordinator. **DD**

About Desert Dominion, Inc.

We are a Southern Arizona pan-sexual, pan-fetish alternative lifestyle organization based in Tucson and welcome everyone regardless of orientation, age (18 and above), interest, race, creed, religion, etc.

We would like to invite those who are in the lifestyle, new to the scene, or just curious about fetish to come to our events, meet us, socialize with us, and learn with us.

We are not a dating service or sex club. We do not find partners for people. We exist to support, educate, and socialize with one another in a safe, sane, and consensual domain.

You must be a member of Desert Dominion, Inc., APEX, or another recognised club of similar purpose to attend any of our functions other than the Munch. Yearly membership is \$30. Quarterly membership is \$10. Both require orientation. Temporary memberships are \$3. They are limited in time to less than 24 hours, are not available for parties, and do not allow any "hands on" activity. **DD**

Party Cancelled!

It hasn't happened, but it came very close to happening.

The same people are always working the door and doing DM shifts. Sometimes, up to three shifts each a night.

It's your club. Help out if you don't want to see the fun stop.

If you don't have DM training, get it!

Dom Sub Switching

The dominance and submission discussion groups are switching days and times. We are moving from the first Sunday of every month to the second Thursday at 7:30 pm. New member orientation will be held at 7 pm. This change goes into effect October 12, 2006.

After 5+ years, the format will also be changing slightly. The first half will be an announced topic with open discussion following. The October topic will be "First Steps: Exploring And Finding Out Who You Want To Be." This is going to start the year long series on dominance and submission relationships. Some future topics are training, break ups, headspace, and dating. Hope to see you there!

From the Education Director

Corsetry: Fetish, Fashion and Figure Shaping 4pm, Saturday, September 9th

What's not to like about corsets? They're fun, sexy, and occasionally, tighter than hell. How do you separate fact from fiction; fantasy from reality? Corsets can offer a visual bonanza of style, grace, and formidable cleavage — even for those who feel less than endowed.

During this presentation, attendees will learn about the history of the corset, what styles are appropriate for a given profile, how to correctly identify and lace a corset, and how to make a corset part of the every day living experience. Practical tips and fitting instructions will make finding and wearing the corset of your dreams a breeze. Feel free to bring (or wear!) your corset(s) for a more hands-on approach.

Ms. Red has been an active member of the Arizona BDSM scene for over 10 years and is a hardcore corset fetishist. Corsets are an integral part of Ms. Red's personal kink and have quickly become a favorite of her husband/Sir's too. Ms. Red's experience with the CD/TV/TG community lends a unique perspective on corsetry for body modification.

Forced Sex Role-play

7pm, Wednesday, September 27th

They say that the most powerful of all sexual organs is the brain. With proper mental stimulation, it is possible for both males and females to orgasm with no physical contact at all. The right sequence of words whispered, or perhaps shouted, can affect one to an amazing extent. Coupled with costuming, props and more and they can make possible an experience not unlike a waking dream.

Even though, for many, “safe, sane, and consensual” are the guiding principles of our leather lifestyle, we use safewords because “no” does not always mean no. The fact that we think of red as being more than just a color is clear evidence that consensual behavior sometimes does not, on the surface, appear consensual. Being forced, in the realm of BDSM, is sometimes part, if not all, of the appeal.

The presenter of this workshop, Jefferson James, first began tying his girlfriends up during sex more than thirty years ago. Recognizing the importance of dialog, he became a writer <www.jeffersonjames.com>. He regularly does abduction play, blackmail scenes, and scenes involving role-played forced sex. He has been the Education Director of Desert Dominion for three years, presented at Desert Dominion, APEX, and the Southwest Leather Conference.

Bootblacking and Leather Care

7pm, Wednesday, October 11th

Question: What’s warm, wet, creamy, and wonderful to smear onto leather?

Answer: Shoe polish, of course.

More than likely, your first thought was not shoe polish. The art of boot blacking, however, can be just as sensuous as all the other kinky ideas that ran through your dirty mind. Like many of the things we do, the erotic aspect of leather care is not obvious to the observer and must be tried to be appreciated. Come join us for a discussion on how to care for boots and leather. We will explore the basics, and then talk about how to spice it up and turn what might look like work into serious play.

Desert Dominion’s own Henry James is the current Southwest Bootblack. He believes that leather care and the service opportunity it offers are a celebration of the Leather Lifestyle. For him, the Bootblack is the keeper of not only our Leather, but the traditions it represents.

Fire Play: Some Like it Hot

4pm, Saturday, October 14th

The very word “fire” tends to generate terror and panic in some. Being caught in a fire and burned alive is a major fear for many. Yet most of us have played with fire in some fashion: lighting a candle, building a campfire, flicking a lighter. In all these cases, fire is somewhat tame. The participants are rarely in imminent danger of being consumed or even singed by it. It is merely mesmerizing as opposed to malevolent or menacing.

Intentionally setting someone on fire is another matter entirely! There is something so very powerful about it. And what of the person seeing the flames rising from their naked body and feeling them on their flesh? Imagine warmth and light caressing your body, penetrating your consciousness, reflecting in the eyes of your Top. This is fire play!

Fire play is more than a little edgy. It is taking play into levels that can have extremely serious repercussions if not done properly. When the edge is pushed irresponsibly, what some consider SM nirvana can have disastrous results. Attempting such an activity without a thorough knowledge of the dynamics involved would not only be foolhardy, it would be downright stupid.

This Saturday afternoon seminar be taught by Master Dennis of APEX, an acknowledged expert with years of experience. Make plans to attend, even if you only consider fire play to be a spectator sport.
